

Tree Pot Planting Guide

Our Tree Pots are a great way to start your dream hedge for a very low cost. These instructions will tell you everything you need to know about giving them the best start in life.

Spacing

There are many factors to consider when deciding how far apart to space your plants:

1. Growth rate/form of your selected plant type
2. Ultimate desired height of your hedge
3. Ultimate desired width of your hedge
4. How much you want the plants to touch each other

Here are some general spacing guidelines for the different varieties we offer:

Variety	Space for 2' HT	Space for 3-4' HT	Space for 6-8' HT	Space for 10-12' HT	Space for 15'+ HT
Green Mountain Boxwood	12"	12-18"	\	\	\
Green Spire Euonymus	9"	12"	\	\	\
Blue Maid Holly	\	12-18"	2-3'	4-5'	\
Skyrocket Juniper	\	\	18-24"	3-4'	5-6'
Box Honeysuckle	12"	12-18"	\	\	\
Schip laurel	\	\	18-24"	2-3'	\
Portuguese laurel	\	12-18"	2-3'	3-4'	\
Hicks Yew	\	12-18"	2-3'	3-4'	\
Little Simon Arborvitae	\	12-18"	\	\	\
Emerald Green Arborvitae	\	18-24"	2-3'	3-4'	\
Green Giant Arborvitae	\	\	3'	4-6'	7-10'
Virescens Western Red Cedar	\	\	2-3'	4-5'	6-8'

There are multiple configurations you can use when planting your hedge:

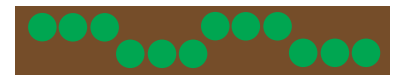

Linear

Staggered

Creative

What to do with your new tree pots

-Receiving

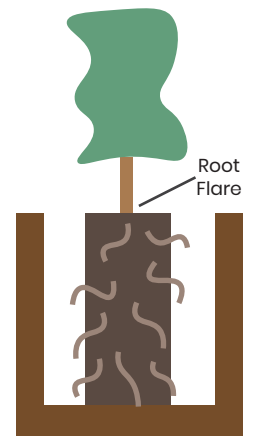

- Remove from boxes immediately
- Water well
- Report any damage to info@coniferkingdom.com with photos and notes

- Planting

- Dig holes same depth as the pot and twice as wide
- Remove trees from pots and gently tease apart roots
- Place in hole and make sure root flare is even with soil surface
- Fill with loose soil, pack very gently, and water well
- Mulch and apply a slow-release fertilizer

- Maintenance

- Water regularly during first several growing seasons
- Yearly application of mulch and slow-release fertilizer
- Wait several years before pruning to your desired shape
